*Re: Workshop to Gather Information Related to Preventing Violation of Tenn. Code
Ann. §65-21-114*

Dear Mr. Jones:

Regarding your letter dated September 16, 2003, subject above, NOW Communications, Inc. coordinates its end-users' telephone numbers with BellSouth to ensure such numbers are properly registered with the TAR code database.

Accordingly, NOW is complying with T.C.A. 65-21-114.

Incidentally, NOW provided this information to the TRA on April 25, 2003, in response to a very similar inquiry. Please feel free to contact me directly if you need further information.

Sincerely,

R. Scott Seab

IN RE: Workshop to Gather Information from the Telecommunications
Industry relating to Preventing Violations of Tenn. Code Ann. 65-21-114

Dear Mr. Jones,

In response to your letter dated September 16, 2003 requesting input from non-facility based resellers of Long Distance for complying with Tenn. Code Ann. 65-21-114. (Due October 1, 2003)

Millennium Telecom LLC (Company ID # 00128575) is a non-facilities reseller of Interexchange Voice Long Distance services to businesses in Tennessee and does not provide local access service. Currently Millennium Telecom uses only the Qwest network for our calls. We went directly to Qwest with clarification regarding how Intralata calls that cross county boundaries within Tennessee are rated and received the following response to our inquiry:

"Tennessee intracounty calls are not rated and GA intracounty calls or calls between two points fewer than 22 miles apart are not rated"

We believe that this indicates that Millennium Telecom is in compliance of Tenn. Code Ann. 65-21-114(a), however, being a non-facilities based reseller of telecommunication services in Tennessee we can rely only on the capabilities of our facility based network providers to track and rate these types of calls. This currently is the only mechanism at our disposal to implement toll free county wide calling for all customers in the counties divided by LATA boundaries.
